

# The Value Of An Integrated Network

USER-FRIENDLY, PATIENT-CENTERED CARE, HEALTHIER OUTCOMES AND LOWER COSTS

Sutter Health's integrated network supports the goals of the Affordable Care Act by providing a user-friendly healthcare system centered around patient care — a system that offers greater access to quality healthcare at a lower cost. This connectivity allows Sutter teams to provide innovative, high-quality and life-saving care to more than 3 million Californians.

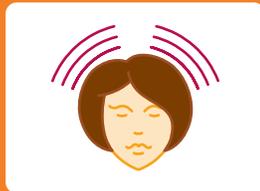

**What Is Integrated Care?** Sutter's integrated network allows doctors and clinical staff to stay connected and work together throughout a patient's journey.

## How It Works — Vivian and Stella's Journey

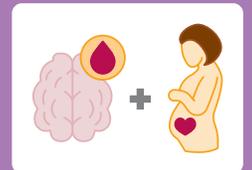

With seamless connectivity from start to finish, Sutter provides comprehensive patient services every step of the way.

On New Year's Eve, Vivian arrives at **Sutter Davis Hospital Emergency Department** with excruciating headaches.

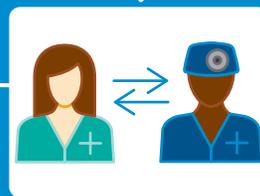

### DRIVING INNOVATION

Vivian is **diagnosed with an intracerebral hemorrhage** — a life-threatening brain bleed. Vivian is also **pregnant** and ready to deliver her third child.

### COORDINATING CARE

Vivian's OB and physician at Sutter Davis consult with the neurosurgeon at Sutter Medical Center, Sacramento (SMCS) and decide delivering the baby is the priority. Vivian undergoes an **emergency C-Section at Sutter Davis**.

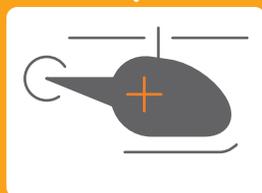

Through Sutter's **Electronic Health Records**, both Vivian and Stella's team of doctors can maximize collaboration via instant access to:

- > Lab Results
- > Diagnoses
- > Immunizations
- > Medications
- > Imaging

### DRIVING INNOVATION

Vivian is **airlifted by helicopter to SMCS for immediate neurosurgery**. The SMCS stroke experts stop the bleeding and repair the condition.

### DELIVERING QUALITY

Vivian's healthy daughter, **Stella, is born** and cared for by her father and the **Sutter Davis** labor and delivery team.

### DELIVERING QUALITY

Vivian receives **advanced rehabilitation care at the Sutter Rehabilitation Institute** in Roseville.

Vivian is **successfully reunited with Stella**, along with her husband and two other children.

# The Value Of An Integrated Network

USER-FRIENDLY, PATIENT-CENTERED CARE, HEALTHIER OUTCOMES AND LOWER COSTS

## The Benefits Of Sutter's Integrated Network

### COORDINATING CARE

- > Connected network of facilities
- > Multi-specialty teams
- > Seamless electronic medical records
- > Care transition for inpatient/outpatient
- > Prevention and screening

### DELIVERING QUALITY

- > Qualified, highly trained medical staff
- > Outperform state and national averages
- > Spread best practices throughout the system
- > Continuous improvement based on patient experience
- > Employ patient-centered satisfaction care models

### IMPROVING AFFORDABILITY

- > Reduced complications
- > Lower hospital readmission rates
- > Focus on efficiency and technology
- > Lowest average cost per discharge
- > Holding the line on costs

### INVESTING IN COMMUNITIES

- > Invested > \$7 billion
- > Mental health, alcohol and drug treatment, crisis, education and homelessness support
- > Programs that benefit underserved communities
- > Community partnerships for vulnerable populations
- > Non-reimbursable care for Medi-Cal patients

### PROMOTING ACCESSIBILITY

- > Automated appointment scheduling
- > Advancing health equity
- > Serving everyone regardless of ability to pay
- > Access points where/when patients need it
- > Expanding care in rural communities
- > Virtual technologies

### DRIVING INNOVATION

- > Invested > \$50 million in 2018
- > Mobile stroke unit, virtual symptom checker, video visits, NICU smart tablets and other mobile health services
- > Pioneering breakthrough surgical procedures
- > Research in breast cancer, Alzheimer's, diabetes, stroke and other diseases

**Sutter's integrated care model allows care teams and care locations to use the power of the network to share ideas, technologies and best practices, ultimately providing better care and a user-friendly experience, achieving healthier patient outcomes and reducing costs.**
